

Dear Columbus-Phenix City Area Citizens,

The Columbus-Phenix City Transportation Study Metropolitan Planning Organization (C-PCTS MPO) is updating its Metropolitan Transportation Plan (MTP) to reflect transportation infrastructure and policy needs through horizon year 2050. The MPO study area includes all of the City of Columbus/Muscogee County, Chattahoochee County, Fort Moore, and a portion of Harris County in Georgia plus the City of Phenix City, the City of Smiths Station, and parts of Lee and Russell Counties in Alabama.

A virtual Public Open House is available online at <https://planningatpond.com/columbus-phenix-city-mtp>. Be sure to view the virtual public open house presentation, record your transportation concerns on the interactive map and complete the survey on transportation needs and opportunities! The needs assessment data collection phase of the plan development will conclude on Friday, September 13.

Please share the virtual meeting presentation, interactive map, and survey information with others throughout the community!

Thank you for your participation!

Sincerely,

The Columbus-Phenix City Metropolitan Planning Organization
